

GENERAL INSTRUCTIONS FOR VIRTUAL PLANT TABLE

Hardy Plant Society Hampshire Group - Virtual Plant Sales Table

We thought it would be nice to continue with our plant sales as many of you may have plants to sell. This is open to all HPS Hampshire members who would like to offer their plants for sale to other Hampshire members. The first list of plants offered is attached to this Snippets email, along with instructions as to how the Virtual Plant Sales Table will work. As usual, 25% of the sale price will go to Group Funds, although you are welcome to donate all proceeds to the Group as some people do. A blank form is attached with instructions for anyone who wants to offer plants. Please contact Becky Getgood if you have any questions.

How will the Virtual Plant Sales Table work?

Offers of Plants (Sellers): Attached to the Snippets email is a blank table for you to include the details of the plants you are offering for sale. ***The first row is an example, please delete this.*** Fill in a brief description of your plants, add your contact details at the bottom, then return it to Becky for compilation. Please tick the box to confirm you are happy for your contact details to be published but talk to Becky if you have any concerns about this, as alternative arrangements can be made.

The table will be published alongside our monthly Snippets email. Sellers undertake to maintain plants as best as they can until travel restrictions are lifted when buyers can then arrange payment and collection. For the scheme to work it is important that Sellers **keep an accurate record of sales**. Please bring money raised for the Group along to our regular meetings once they resume (cheque or cash).

Buyers: Contact the Seller directly by email to reserve a plant/s that you are interested in. When travel restrictions are lifted you will be responsible for liaising with the seller to arrange collection and payment by a method that suits you both. Please do not pay until plants are collected.

Please be aware that plants may not be looking so floriferous by the time you are able to collect the plants. In addition, there may be valid reasons why the Seller may not be able to provide the reserved plant if some time has passed. We therefore ask Buyers to be understanding if this happens.

Please note that the Seller and the HPS Hampshire Group take no responsibility for wrongly named plants or those that are not true to type, as some may be grown from open pollinated seed.

We hope that this plant sales initiative will be helpful to members – I shall be looking forward to collecting some new plants for late Summer and Autumn planting 😊.

Becky Getgood.
